

RING SIZE GUIDE

The best way to accurately size a ring is using what jewelers refer to as a ring sizer. This guide is printed in US Letter size and scaled to 100%. You can check the accuracy of your print by positioning a credit card on the line below.

If the card lines up, you're all set.

Line up credit card to this size

MEASURE WITH THE HEARTS ON FIRE RULER

Cut out the ruler and carefully cut the line to create a slit.
Wrap the ruler around your finger at the base. Pull the tapered end through the slit.
We suggest measuring your knuckle in order to ensure the ring will fit comfortably.

Sizing availability is specific to each product, though some larger rings can be sized down.
Ring size may also vary slightly depending on the size of the ring

OR MEASURE BY MATCHING YOUR RING

Use an existing ring that fits you well. Match the inside of that ring with one of the circles below.
You should see only the white circle---with no grey space---inside your ring.
